

### **Self-Introduction of Dr. Steven Wong:**

My name is Steven Wong. I am a medical doctor. I graduated from the medical school of the University of Hong Kong and received my training both in Hong Kong and in Australia. I am specialized in Anaesthesiology and Pain Medicine.

I am currently the Chief of Service of the Department of Anaesthesiology and Operating Theatre Services, Queen Elizabeth Hospital. Besides giving anaesthesia to patients going for surgery, I also lead the pain service team by providing pain relief, not only to patients after surgery, but also to patients suffering from other kinds of pain problems. I see patients in the wards, in the out-patient clinics and perform pain-relief procedures to them in the operating theatre.

Queen Elizabeth Hospital is a training centre for young doctors. I am involved in the training of doctors undergoing specialist training for anaesthesiology and pain medicine. I participate as examiner in their professional examinations.

I also serve the professional community as the President of the Hong Kong Pain Society and the Vice-President of the Society of Anaesthetists of Hong Kong. Both societies are non-profit charitable organizations whose objectives are to promote the exchange of knowledge and skills among healthcare professionals, and to advise the government and the public on healthcare issues.

I am the father of two boys. My elder son has graduated from La Salle College and is now studying law in the university. My younger son is now in Form 6. I am proud of being a La Salle parent.

### **Objectives & Aspiration Statement of Dr. Steven Wong:**

I joined the La Salle family since 2003 when my elder son was admitted to Form 1 of La Salle College. I was very much impressed by the cohesiveness among the students, alumni, and parents. I was particularly interested in the work of the Parent-Teacher Association. Inspired by my predecessors, I stood for election to the PTA Standing Committee and I was fortunate enough to be given the opportunity to serve the School. A decade has passed and I have served for five consecutive terms as the Chairman of the Standing Committee. It has been my most gratifying experience to be able to work with a team of dedicated and talented parents and teachers.

The LSC Parent-Teacher Association has always been a good partner with the school, and together with the LSC Old Boys Association and the La Salle Foundation we form the foundation pillars on which the School stands. The LSCPTA, with close to 100% membership rate among parents of current students, is the most representative body for our parents.

Last year, I have served as the Parent Manager of the inaugural Incorporated Management Committee of the College. With the support from our parents, the PTA has helped in financing the installation of information technology facilities to assist e-learning and teaching. In the coming year, I would like to render your support to me to continue to represent our parents to assist the School in every way for the benefit of our boys.
